Greg,

When you get a chance please submit a itemized cost proposal to address each of the items outlined in Gary's email.

Gary has not sampled anything other than the Frac Tanks.

I am interested in that. Has Gary sampled the totes, drums, etc. for waste characterization? I don't think any of it has been sampled. This sounds very doable to me.

Subject: CES

Mickey:

What do you think about the following:

These are the things I would like to see about you guys concentrating on but I am interested in what you guys have to say:

- 1. Dispose of all waste in totes, drums, and smaller containers as well as the actual container;**
- 2. Conduct lab pack and dispose;**
- 3. Dispose of ceramic material on ground;**
- 4. Consolidate and dispose of debris throughout the site;**

We will transfer material out of vacuum/roll-off boxes into new containers for disposal. If IKON transport and cleans these old containers they can keep them (CES Containers).
